Thanks. That's what I thought too.

I do not think a TSD is needed. There's no technical detail to put in it that won't fit in the FR notice. The legal/policy aspects should be in the FR notice, not buried in a TSD.

Phil – Given the legal (as opposed to technical) nature of TX SSM petition project, do you see a need for a technical support document (TSD) for the Texas proposed FR action?

Or, this is something Region will need to figure out. Thanks.

Alan
